COMPANY PROFILE

**EVERYTHING STARTED
WITH A FUSE**

"THE HIGHEST REWARD FOR A
PERSON'S TOIL IS NOT WHAT THEY
GET FOR IT, BUT WHAT THEY
BECOME BY IT"

**A CONTINUOUS PROGRESS ON
THE WAY OF SUCCESS**

A CONTINUOUS DEVELOPMENT

THE ORIGIN

The foundation, the productive and commercial organization.

1947

1947
Alessandro Molinari starts the production of fuses under **Weber's** license, creating a laboratory in his apartment placed in Milan.

1952

The company "**Molinari Alessandro**", is established, with its own laboratory in Milan, and becomes agent and distributor of the company **Weber**.

1960

The company grows and becomes an S.R.L., with a new bigger laboratory. The **Omega** brand is born and it originates from the last letter of the Greek alphabet, already known as the electric resistance unit (Ohm).

1969

Mr. **Mario Ciboldi** enters the partnership giving birth to a new productive and commercial reality.

1969

FROM PRODUCERS TO DISTRIBUTORS

It is the period in which the company policy is reviewed, by increasing and improving the trading offer.

1981-1987

1981
Omega Fusibili is established and it becomes the sole agent of international brands as **Bulgin**, **Eaton**, **EDK**, distributing high quality electronic components. It is in this moment that turning into "distributor" is bound to happen.

1985

The sudden development and the need to enlarge the warehouse push the company to move to an industrial area which is logistically better equipped. The new headquarter in Assago already had a suitable space for the planned expansion.

1987

Omega is now a **well-established company with a strong national presence**. The catalogue has been extended and diversified, and commercial agreements with other prestigious foreign company.
In this spirit of corporate renewal the brand Omega is redesigned giving birth to the actual logo. From now onward Omega will be recognized as a reference of excellence. The propensity to quality, which has always distinguished us, will become the company slogan: "**Technology and Quality**".

1988-1995

1988
Roberto Ciboldi enters the company, strengthening the family management.

1990

4 of today's **6 product lines** take shape:

ELECTRONIC

CONNECTION

PROFESSIONAL

POWER

e-MOTION

AUTOMATION

1995

We make various real estate and logistics investments. **The company is ready for the new millennium.**

FROM DISTRIBUTOR TO GROUP

A great change happens with a determined strategic vision and with a valid economic balance.

2001-2009

2001
To aim a wider and international market, our first branch is founded: **Omega Composants sarl** placed in Lyon - France.

2005

With a dynamic and farsighted business vision, the acquisition of the company **Italweber**, which until that moment is a reference competitor in the "**Power**" sector, is finalized, giving birth to the greatest Italian group for the supply of components for the electric protection.

ITALWEBER

2008

The need to complete the offer with UL and BS fuses leads the company to acquire, and later incorporate **Fusimport**, until then leader for such products.

2009

The new plant in Assago is inaugurated, with wide commercial and technical offices and a fully automated warehouse of over **4000 sqm.**, which puts Omega in the forefront of logistics.

2011-2019

2011
Through the acquisition of three important producers of transformers, **Italweber Elettra** is founded. Today the company represents a point of reference in the Italian market and is the leader in the production of low and medium voltage transformers.

2014

Omega hits a new investment: the acquisition of the company **Fusit** which is shortly after incorporated. The potential and extraordinary synergy between the two companies brought to an efficient internal reorganization, but most of all to the possibility of dealing with product-lines which can easily be integrated with Omega's range.

FUSIT

2015

Omega takes over a branch of business concerning the distribution in Italy of miniature lever switches, hence completing an already wide selection of **Apem** products.

2018

Omega Fusibili acquires **Fancos**, an historical company operating in the automation market.

2019

Through Italweber is acquired the historical company **Ocmei**, specialized in security in the electrical field. Omega acquires **ErmeC**, a Spanish distributor of electronic and electromechanical components based in Barcelona, active for more than 25 years in the Spanish and Portuguese market.

2020

2020
The expansion of the automatic warehouse is inaugurated, allowing Omega to double its logistics capacity.

2025

ErmeC expands and relocates to Barberà del Vallès, with a new facility offering 400 m² of office space and 700 m² of warehouse space.

ErmeC acquires 100% of **Piris S.A.**, another company specializing in the distribution of electromechanical components.

Piris ::::

A new milestone: Omega acquires 100% of **Softing Italia S.r.l.**, a leading distributor of electric motors and electromechanical components.

softing

2025

COMPETENCE, EXPERIENCE, INNOVATION,
OUR FOOTPRINTS OVER TIME

AN INTERNATIONAL REALITY

The coverage of all markets and fields of applications in the countries of Mediterranean area guarantees a constant and direct relationship with our customers, always oriented to maximum efficiency.

OUR QUALITY IS CERTIFIED AND ACCREDITED

QUALITY

UNI EN ISO 9001:2015
We are ISO9001 certified, guaranteeing the highest standards of quality and service.

ENVIRONMENT

UNI EN ISO 14001:2015
Omega's activities have always been designed to respect the environment. Acting sustainably is a fundamental element of our business.

ETHICS

SA 8000:2014
Working and behaving seriously and ethically has allowed us to receive the SA8000 certification which attests internationally our respect for human and worker's rights.

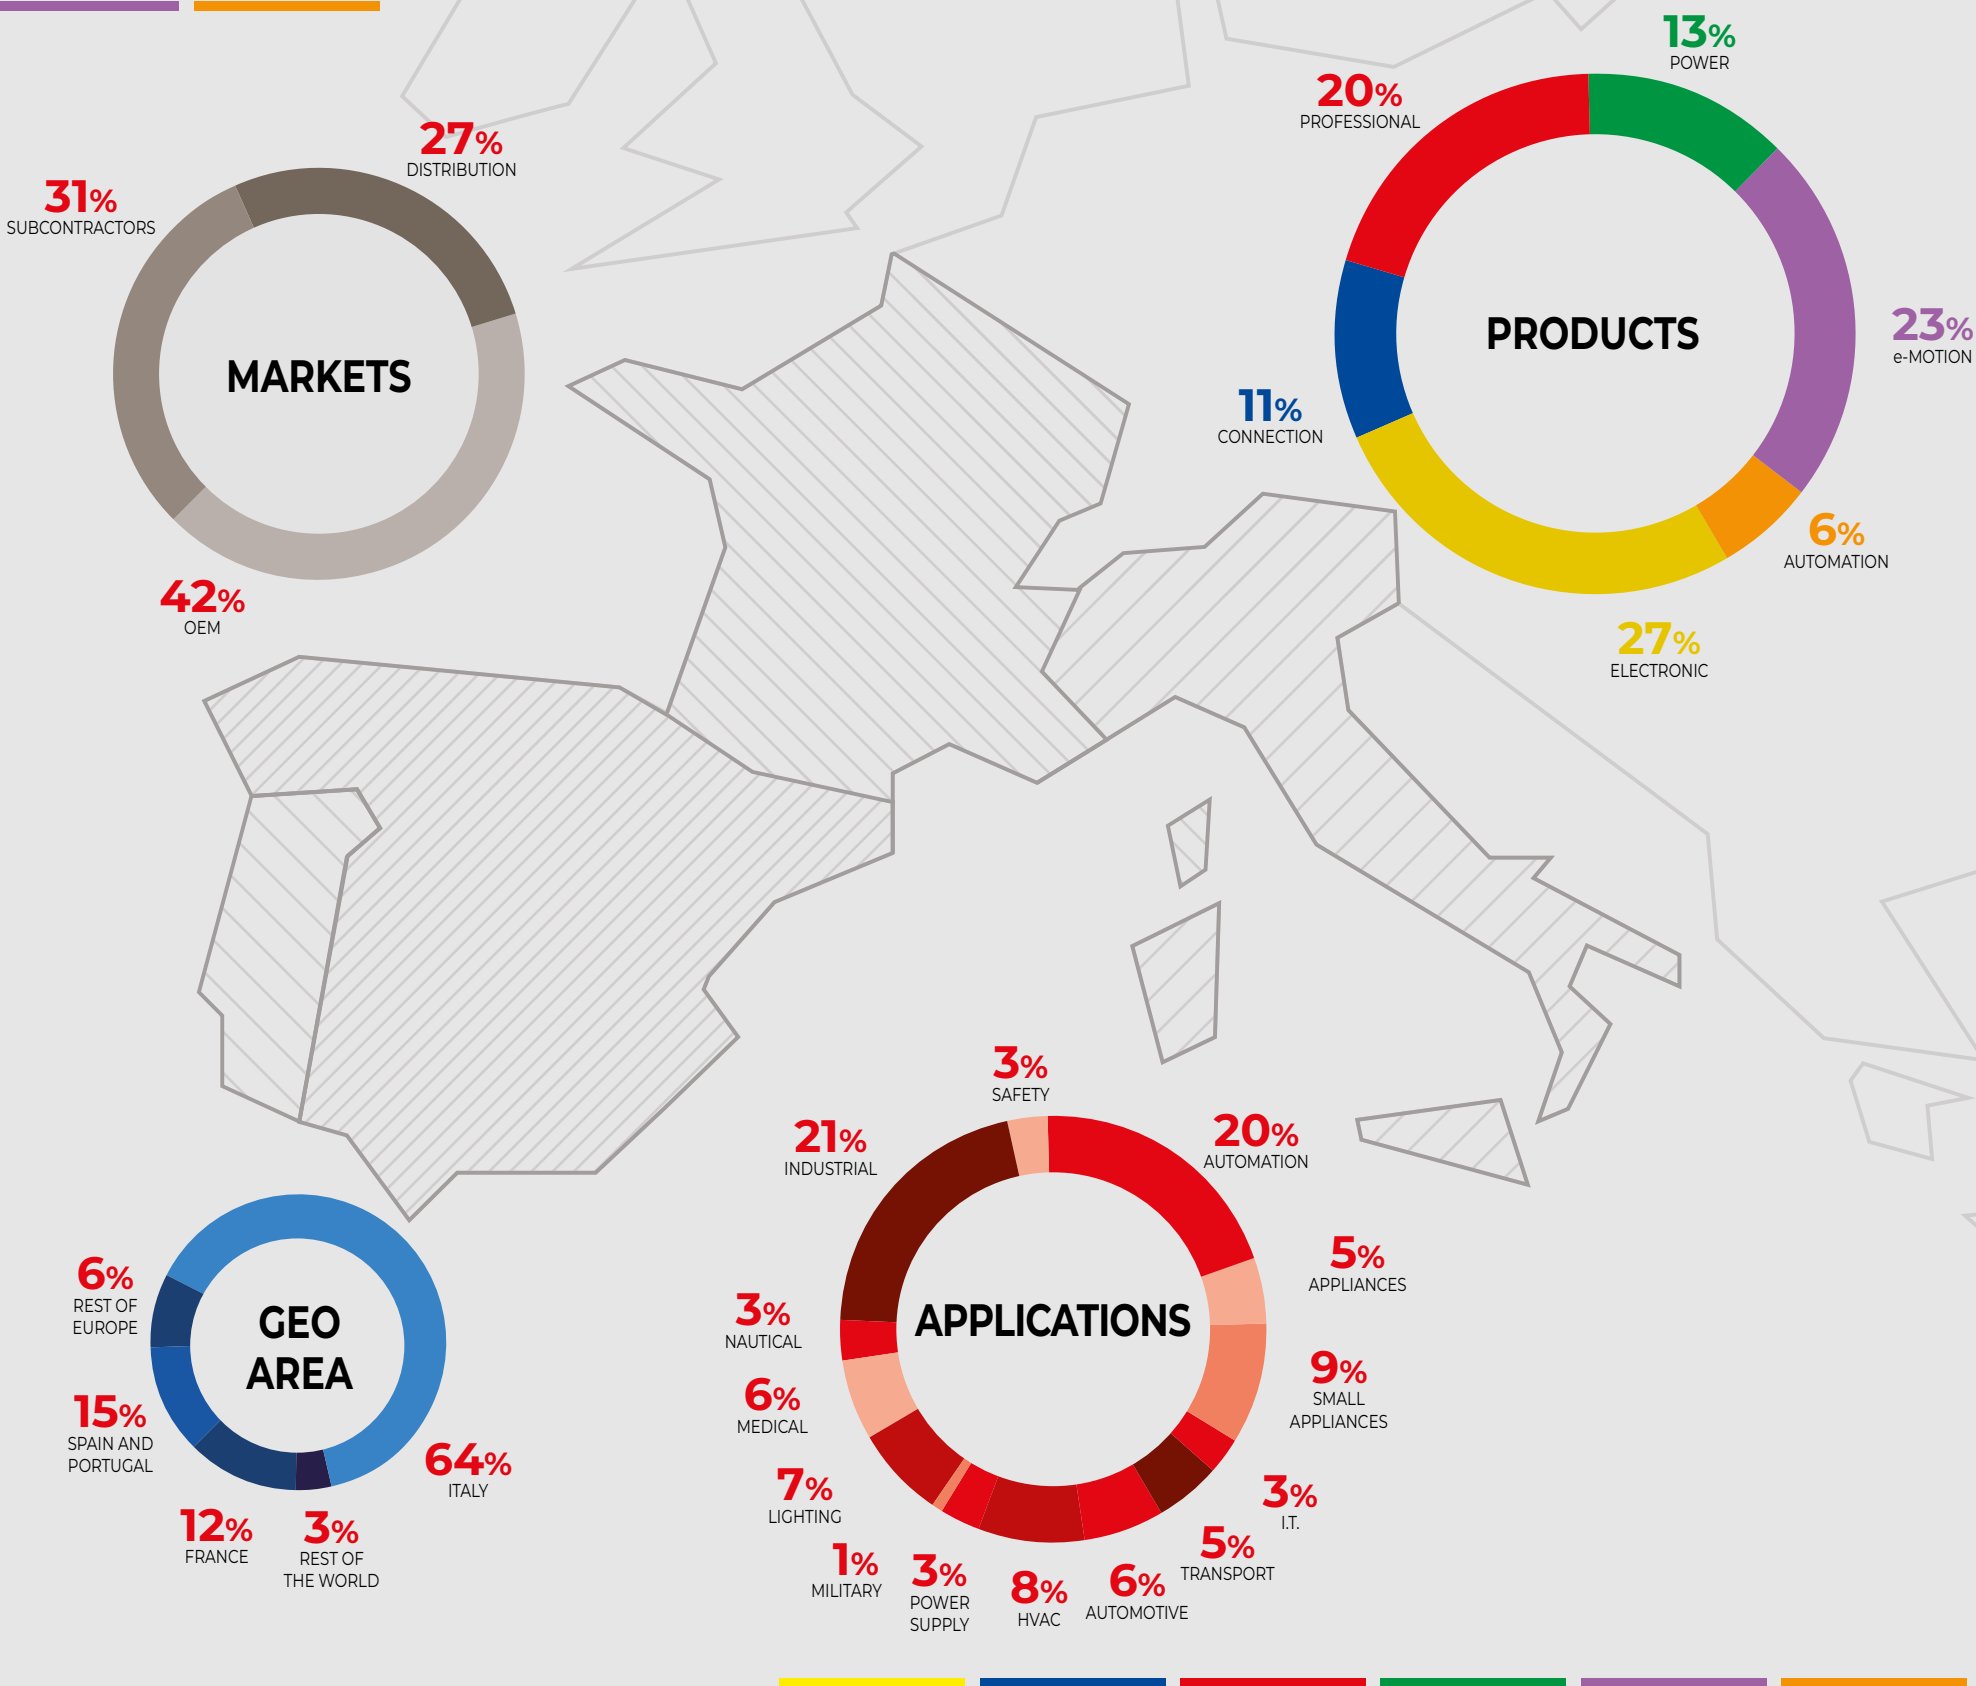

RATING

CREDIT PASSPORT
Omega's strength is also certified by our Financial Credibility Passport, a certification that demonstrates our creditworthiness and helps us expand into international markets.

SUSTAINABILITY

ECOVADIS
An international recognition of companies' commitment to sustainability, ethics, and social responsibility.

OVER 32.000 REFERENCES AVAILABLE IN ITALY, FRANCE, SPAIN AND PORTUGAL

FAST AND EFFICIENT DISTRIBUTION ON AN INTERNATIONAL LEVEL

With more than 32,000 product references in stock, we ensure fast and reliable deliveries. Our automated warehouse in Assago (Milan), with 7,100 pallet spaces, together with our warehouses in Lyon and Barcelona, enables us to guarantee delivery within 48 hours.

SERVICE

- Delivery in 48 hours
- Over 32,000 part numbers instock
- Multilanguage catalogue
- Updated on-line catalogue
- Yearly fixed price

CUSTOMIZATION

- Custom packaging
- Barcodes
- Fuses with custom characteristics
- Kit on request

AUTOMATIONS

- Wiring products
- Technical modifications
- Assembled

OUR EUROPEAN OFFICES

AND PEOPLE

OUR PARTNERS: A CONSOLIDATED RELATIONSHIP

A VALUABLE RELATIONSHIP OF COOPERATION AND MUTUAL TRUST

We have always chosen to work with the best global ISO9001 certified suppliers that guarantee our customers the highest standards of quality and performance. Together we have built strategic relationships that allow the Omega Group to offer to the market the widest range of products, quality, safety and continuity of service at the best commercial conditions.

SIX PRODUCTS LINES

ELECTRONIC

A range of printed circuit board components for current protection and current management.

CONNECTION

Back panel components for the AC power supply of the equipment.

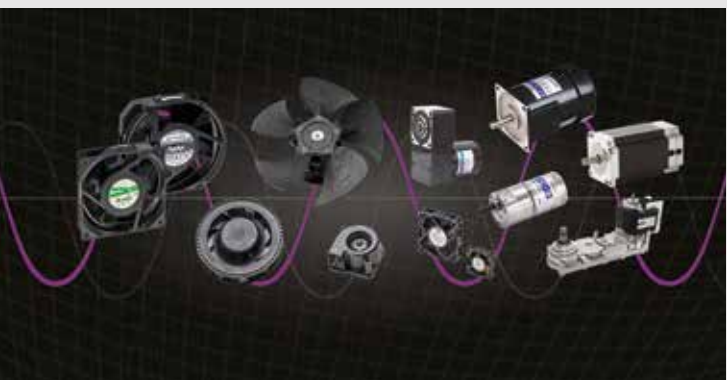

PROFESSIONAL

Waterproof and resistant products for demanding applications and experts.

POWER

Omega's response to the needs of electrical protection and power electronics up to Medium Voltage.

e-MOTION

A complete range of motors, fans and accessories full of options and additional functions.

AUTOMATION

One source for all components for automation, control, safety and human-machine interface.

In order to divide the more than 32,000 items we manage, we have created six product lines, divided according to specific applications. Each line is distinguished by a colour that makes it immediately recognizable

TO OFFER YOU
ALWAYS THE BEST

ELECTRONIC

SIGNED BY BRANDS LIKE EATON, THERMODISC, APEM, MEC, EDK, FUZETEC, BELFUSE AND COSEL. A range of components strictly approved worldwide. The Electronic line includes cylindrical fuses, printed circuit fuses, fuse holders, resettable and thermal fuses, as well as automotive fuses and fuse holders, terminals, push-buttons, lever switches and an assorted range of sensors. We can also offer a complete line of magnetic components for current management on the power supply circuit of a PCB such as: inductors, transformers, ESD and supercapacitors.

CYLINDRICAL FUSES	PCB FUSES	POLYTRON	AUTOMOTIVE	FUSEHOLDERS
CLIPS AND SMALL METAL PRODUCTS	POLYSURG	INDUCTORS	SUPERCAPACITORS	TERMINAL BLOCKS
PCB TOGGLE SWITCHES	TACT AND DIP SWITCHES	THERMOSTATS AND THERMAL FUSES	NTC TEMPERATURE SENSORS	AC/DC POWER SUPPLIES
DC/DC POWER SUPPLIES	ULTRA MINIATURE MICRO SWITCHES	MINIATURE MICRO SWITCHES		

CONNECTION

CERTIFIED COMPONENTS ALL OVER THE WORLD, PRODUCED BY BULGIN, AEELS CONTACT, DURACELL, SCOLMORE, ODU AND LUMBERG. It represents the most qualified offer in the world of connection for lighting technology and power supply. The range includes sockets, plugs, polysnaps, filters and power cables, as well as batteries and battery holders, rocker switches and a wide range of lighting connectors. This extensive range is completed by the IEC LOCK by SCOLMORE series of connectors that meet all connection safety requirements.

AC166 "G" CONNECTORS	AC166 CLASSIC CONNECTORS	LED CONNECTORS	IEC LOCK SYSTEM	IEC CONNECTORS
POLYSNAP MODULES	RFI FILTERS	CORD-SETS	RJ45 CONNECTORS	BATTERIES AND BATTERY HOLDERS
SWITCHES	INDICATORS	TERMINAL BLOCKS	RAST CONNECTORS	PCB CONNECTORS
CIRCULAR CONNECTORS	MODULAR CONNECTORS	FOOTSWITCHES AND HAND CONTROLS		

PROFESSIONAL

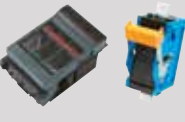

PRODUCTS CERTIFIED AND SIGNED BY LEADING BRANDS SUCH AS APEM, BULGIN, LITTELFUSE, EATON. A complete range of items with the highest level of performance. It includes components such as connectors, push-buttons and switches, vandal-proof pushbuttons, industrial and miniature lever switches, actuators, piezo push-buttons and LED indicators and a complete range of accessories for the automotive market, such as distribution boxes, battery disconnectors and supercapacitors.

MINIATURE SWITCHES	TOGGLE SWITCHES	IP67 PUSH-BUTTONS AND SWITCHES	VANDAL RESISTANT PUSH-BUTTONS	PIEZO SWITCHES
				
SEALED ROCKER SWITCHES	PNEUMATIC AIR SWITCHES	DISTRIBUTION MODULES	SUPERCAPACITOR MODULES	BATTERY DISCONNECTORS
				
ACTUATORS	LED INDICATORS	IP68 CONNECTORS	IP68 DATA CONNECTORS	
				

POWER

CERTIFIED COMPONENTS PRODUCED BY OUR PARTNERS ETI, EFEN AND BUSSMANN. Our proposal to the needs of electrical plant engineering. The range includes CH series fuses and fuse holders, D0 series fuses and bases, NDZ and NH fuses and disconnectors. And more: BS, UL and CSA series fuses and extrarapid fuses, as well as fuses and fuse holders for the photovoltaic field and for battery protection. The Medium Voltage range completes this already wide assortment.

CH SERIES	D0 SERIES	NDZ SERIES	NH SERIES	NZ FUSE-SWITCHES
				
SPECIAL FUSES	UL/CSA FUSES	BS88 SERIES	ULTRA QUICK FUSES	MEDIUM VOLTAGE
				

e-MOTION

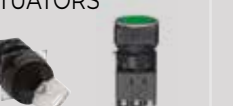

HIGH QUALITY PRODUCERS, PELKO, KAKU, JOHNSON ELECTRIC, MELLOR, GGM, HETAI FOR EUROPEAN DISTRIBUTION. Electric motors, gearmotors, and solenoids supporting the most advanced motion control applications. The range is completed by AC, DC and EC fans, micro-fans, accessories and ventilation units. The possibility of offering 16 different optional functions such as inrush current protection, automatic restart, rotation detection, automatic temperature control or programmable speed and speed control options, makes this range one of the most complete on the market.

DC MICRO FANS	DC FANS	DC CENTRIFUGAL FANS	AC FANS	EC CENTRIFUGAL AND AXIAL FANS
				
REFRIGERATION MOTORS	ACCESSORIES	FILTERS WITH FANS	AC, DC AND BLDC MOTORS	AC, DC AND BLDC GEARMOTORS
				
SOLENOIDS				
				

AUTOMATION

COMPONENTS COMPLYING WITH THE BEST INTERNATIONAL STANDARDS PRODUCED BY IDEC, JOHNSON ELECTRIC AND HERGA. Components for safety, automation, control and human-machine interface (HMI), safety push-buttons, modules and controllers, laser scanner, third-generation emergency push-buttons, PLC and all the necessary accessories to complete machines and back panel, tower lights and Led lamps for every use.

E-STOP	ø16 ACTUATORS	ø22 ACTUATORS	ø25 AND ø30 ACTUATORS	ENABLING SWITCHES
				
GRIP SWITCHES	LASER SCANNERS	INTERLOCK SWITCHES	LED SIGNALING	LED LAMPS
				
POWER SUPPLIES	RELAYS	PLC	TOUCH SCREENS	ATEX COMPONENTS
				
FOOTSWITCHES
